

POWER: The Future of Nuclear Energy

Lesson 16: Big IDEAS Self-Reflection Assessment

How do you feel about your work? What adjectives would you use to describe your feelings toward your finished product?

What would you improve if you had more time?

What are you the most proud of?

What did you learn along the way? Describe any new skills or concepts you acquired.

What did you learn about yourself based upon this experience?

What part was the hardest for you? Why?

What part was the easiest for you? Why?

Would you do something similar to this in your free time? Why or why not?

How could you build on this assignment or project in the future?

What are your next steps?
